Objective

Seeking a career where I can expand my knowledge further while continuing to utilize my skills of QA in a challenging environment, as well as becoming a key contributor of creating and maintaining a healthy culture within the company.

Skills

- Experienced testing all major mobile devices and browsers
- Very familiar with the following databases/tools: Jira, TargetProcess, Jenkins, CircleCI, Charles Proxy, Confluence, Mparticle, Periscope, TestRails, Visual Studio Code, Figma & Skitch

EXPERIENCE

GOAT, Culver City, CA - QA Analyst - Oct. 2017 - PRESENT

- Leads team during regression testing for web and mobile platforms
- Writes release reports which includes automated test results, manual regression results, and code changes that were included in the release
- Helps manage new feature releases on web and mobile platforms
- Contributes in leading team during daily backend deploys
- Works closely with developers, product management, and design during feature testing to ensure meeting for all acceptance criterias
- Creates and maintains quality of test cases
- Works with automation team in getting tests cases to become automated
- Creates bug tickets and stories which are used to elaborate on issues or improvements to a feature
- Helps triage high priority issues on production
- Point of contact for GOAT.com QA questions and concerns

EDUCATION

University of the Pacific, Stockton, CA - BA, Political Science - August. 2014 - August. 2017

- Earned an athletic scholarship to be a part of the men's tennis program
- Received WCC Honorable Mention awards for singles and doubles in 2017
